

T110

THE PRODUCT

Ergonomic and versatile Hood type machine (useful space 410mm), it washes pizza plates and Gastronorm trays; its productivity reaches about 900 plates per hour**. You can choose between two cycles in order to adapt the wash time to the dirt of dishes and without any change they are possible both the line and the angle installation. The reduced effort for rising the hood the smart manufacture reduce the operators' fatigue and improve their efficiency.

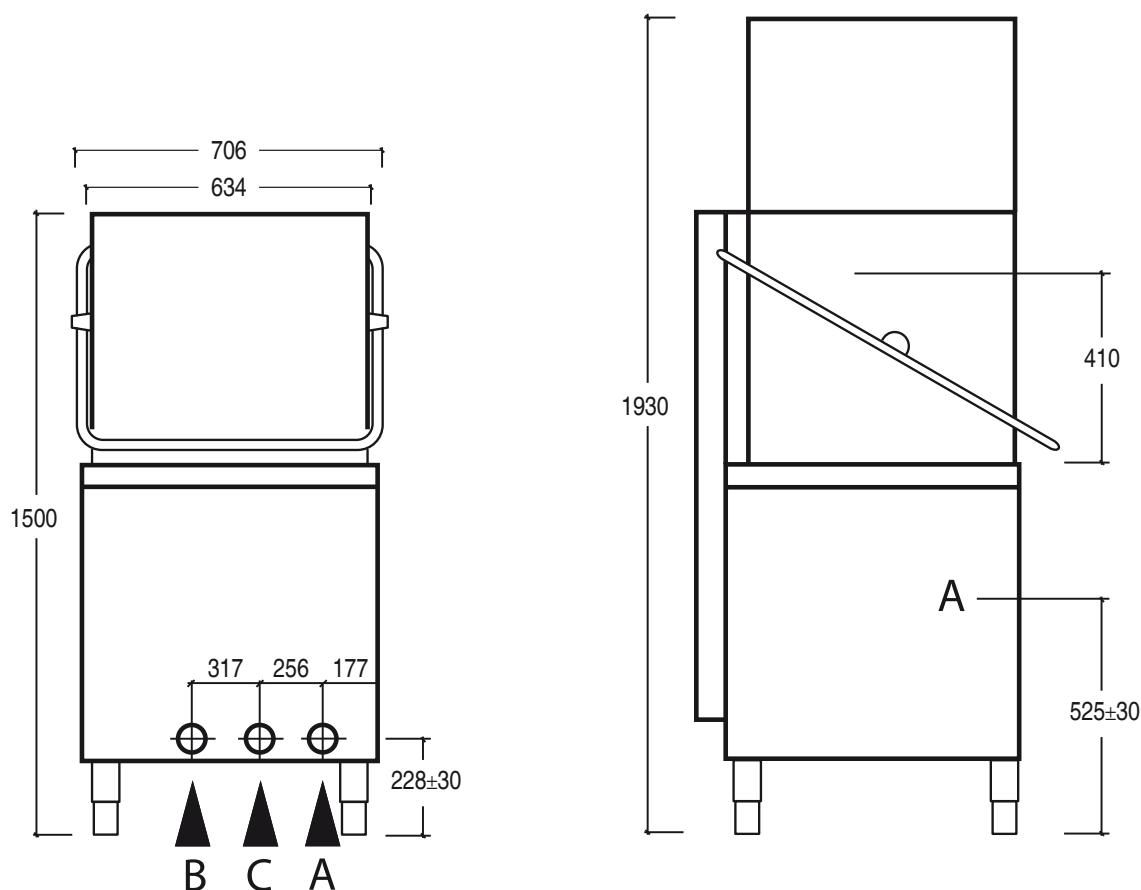

Dimensions mm	640x740x1.500
Usable height mm	410
Tank capacity lt	15
Wash cycles length sec	90-120
Water consumption	2,9 lt/basket
Wash pump power	600 W
Installed power 400v 3n+t	W 8.150
Auto-start	standard
Soap dispenser	Kit optional
Drain pump	Kit optional

Equipment:

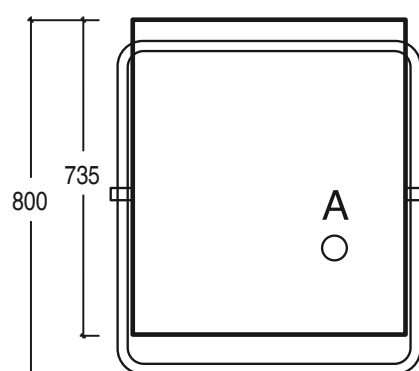

- 1 basket dishes
- 1 basket glasses
- 1 cutlery container

** with an optional rack

A			Ø 50 mm M
B			Ø 3/4" GAS M
C			

The information given on this documentation, in particular those relating to consumption, are expressly referring to a machine operating under ideal conditions and may vary depending on the actual conditions of installation and use
